GROUP 3600

Applicant's Response To The Office Communication Of 4/15/03

COMMENTS ON THE AMENDMENTS AND REMARKS

1. This is Applicant's Response to the Office's Paper, a communication dated 4/15/03 (cover as Exhibit "A", attached). Applicant thanks Examiner Palabrica for the quick response.

2. The Examiner inaccurately states,

"New issues are amended claims 1, 5, 10 21, 22, 24, 26, and 28."

[Examiner Palabrica, Communication to Applicant, 4/15/03]

3. Applicant respectfully disputes this on a claim by claim basis.

First, each and every change was made because the Examiner demanded it in his previous Communication (infra).

Second, each and every change used material identical to the original specification and claims (infra).

Third, the Applicant stated the above in the previous Communication.

Fourth, each change will now be shown to be identical and exactly responding to what the Examiner suggested and demanded.
